Powerball Draw Show

Date & Time

Powerball® drawings are conducted every Wednesday and Saturday at 10:59 p.m. ET. The show is broadcast live from the Florida Lottery draw studio in Tallahassee, Fla.

The Powerball draw show is uplinked to more than 100 television stations across the country. Carrier stations will air the drawings, either live or within minutes of the live drawings, or display on-screen the winning numbers following each drawing. Viewing times will vary by station. At the conclusion of the drawing, video will be posted to Powerball.com and to the YouTube channel *Powerball39*.

Satellite Coordinates

Media outlets should contact their local lottery for satellite coordinates and rules on broadcasting the Powerball drawing live. Some lotteries have agreements on which stations can broadcast the drawing live.

Official Draw Results

Official draw results are posted to Powerball.com around 1 p.m. ET. The draw results are also emailed and faxed to lotteries and select media outlets. Draw results will include the number of winners in each prize tier, the state or jurisdiction where a jackpot-winning ticket was sold and the estimated jackpot for the next drawing.

Following a jackpot win, media inquiries should be directed to the lottery press contact in the state or jurisdiction in which the winning ticket was sold. Lottery press contacts are listed under the *press contacts* section of Powerball.com. The state or jurisdictional lottery should be able to provide additional information, including the store location where the winning ticket was sold, if the ticket was a *quick pick* or manual pick, etc.

About Powerball

It's America's Game! Powerball® celebrated its 25th anniversary in April 2017. Currently, 46 lotteries sell the Powerball game, including 44 states, Washington D.C. and Puerto Rico. Game sales remain suspended in the U.S. Virgin Islands following Hurricane Maria.

The largest Powerball jackpot to date was won on Jan. 13, 2016. The world record \$1.586 billion jackpot was won by three tickets purchased in California, Florida and Tennessee.

On October 2015, an updated version of the Powerball game debuted with changes aimed at delivering bigger jackpots and more overall winners. The game matrix was changed; the number of white balls increased to 69, while the number of red balls dropped to 26. The Power Play® feature was enhanced with a 10X multiplier that is available for play whenever the advertised jackpot annuity is \$150 million or less. The Match 4 + PB prize was also increased from \$10,000 to \$50,000.

Powerball costs \$2 per play. For an additional \$1 per play, the Power Play® option can multiply non-jackpot prize amounts by 2, 3, 4, 5, or 10 times. NOTE: The 10X multiplier is only in play when the advertised jackpot annuity is \$150 million or less. The Match 5 prize with Power Play is always \$2 million.

The Powerball jackpot starts at \$40 million and grows by a minimum of \$10 million every draw until the jackpot is won.

Players select five numbers from 1 to 69; and one Powerball number from 1 to 26. Players can either select their own numbers on a play slip or request an *Easy Pick* or *Quick Pick*, which allows a lottery terminal to choose the numbers for them.

Powerball drawings are held every Wednesday and Saturday at 10:59 p.m. ET and are broadcast live from Tallahassee, Fla.
