Lotto America Drawings

Lotto America® drawings are held every Wednesday and Saturday after 11 p.m. ET at the Florida Lottery draw studio in Tallahassee, Fla. Currently, drawings are not broadcasted or published online.

Official Draw Results

Official draw results are posted to Powerball.com around 11:45 p.m. ET. Draw results include the number of winners in each prize tier, the jurisdiction where a jackpot-winning ticket was sold and the estimated jackpot for the next drawing.

Grand Prize

Lotto America's Grand Prize, commonly referred to as the jackpot, starts at \$2 million and increases by a minimum of \$50,000 per draw until it is won. Players win the Grand Prize or one of 8 set cash prizes by matching one of the 9 ways to win.

Based on the winner's selection, the Grand Prize – won by matching the first five numbers in any order and the Lotto America Star Ball – is either an annuitized prize or lump-sum payment.

Where to Play

Lotto America is available to play in 13 jurisdictions: Delaware, Idaho, Iowa, Kansas, Maine, Montana, Minnesota, New Mexico, North Dakota, Oklahoma, South Dakota, Tennessee and West Virginia.

Press contacts for the participating lotteries can be found in the media center of Powerball.com.

How to Play

Lotto America® costs \$1 per play. For an additional \$1 per play, the Lotto America All Star Bonus® can multiply your winnings by 2, 3, 4 or 5 times! The multiplier number is randomly selected before each drawing. The All Star Bonus does not apply to the Grand Prize.

Players select five numbers from 1 to 52, then one Lotto America Star Ball® number from 1 to 10.

Players win the Grand Prize or one of 8 set cash prizes by matching one of the 9 ways to win.
